

Fountain Valley, California – December 1, 2009 -- Mike Follmer, Executive PR Director of the Sixth Annual APBA Hot Products Mark Hahn Havasu 300 PWC Endurance Race announced today the naming of an Official Photographer for the February 2010 event being held at Lake Havasu in Arizona.

Havasu Photo was named the Official Photographer in today's announcement, and will be on site to capture every aspect of the race from the pits, to on the water action shots and the awards banquet that will follow the day of racing. Paul Laney, owner and principle photographer of Havasu Photo has been actively involved in photography and recognized for his work since 1972, and has himself been an avid PWC rider since 1976. This involvement in the sport gives Paul an insider's perspective when taking the action shots that racers are all looking for.

Event and Awards Banquet photos will be available on the Havasu Photo web site: www.havasuphoto.net shortly after the event. Racers and sponsors are also urged to contact Paul directly if there are any special shots they want him to make sure and get.

Mike Follmer
